Nancy was responsible for creating the only International NACAC fair - which has been held in Vancouver up until 2020. Her contributions have been significant and have also provided additional funding to International ACAC. Nancy's contributions are significant but are often overlooked since they have occurred "alongside" International ACAC committees.

Her nominator said "Nancy has established, rallied, and built the Vancouver area counselors, and through her involvement with the NACAC fair, she has become the go-to person in this region. Through establishing the one international NACAC fair, Nancy has also helped to increase the recognition of International ACAC within the larger community."

International ACAC is proud to award Nancy the Distinguished Service Award!
