Please provide a maximum 250 word statement of your experiences, why you wish to run for the International ACAC Board, and other relevant information you would like members to know about you. This description will be included in the official ballot and appear exactly as provided by you.

For 16 years, I have been a fortunate member of the international school community, which has been an incredible incubator for understanding culture and appreciating diversity. Early in my career, I was introduced to NACAC and have been a member since 2008. I have tried to soak up every ounce of knowledge I could find. In my effort to better learn about the issues that are relevant to the IACAC community, I served as a member of the Membership Committee from 2014-2017. During my 3 years of service, I was educated to greater depths about our policies and the power of membership. I wrote a blog on the indispensability of membership to NACAC and IACAC in which I wrote the following:

"We need NACAC to continually provide guidance, resources, and muscle to help grow our association. Similarly, NACAC needs us to help them grow in their understanding of knowledge, policies, and trends internationally. For this relationship to strengthen, and in hopes for us to continually aspire change, our presence through your membership to NACAC is critical."

I understand the value that we each have as voting members of NACAC. I also understand the strength that we possess as one of the largest affiliates. As a seasoned counselor, a long-standing NACAC/IACAC member, and a loyal member of the Membership Committee, I hope to bring my knowledge and experience to each Executive Board meeting and every NACAC Assembly.
